Brief Abstract of Letter

Petn for the grant of a loan to the Kolar town municipality for improving the water supply and drainage of the town

NOTES AND ORDERS

In August 1912 the Dy Comr of the Kolar Distt brought to the notice of the Govt the necessity for improving the water supply of the Kolar town at an estimated Cost of Rs 5,000/- and applied for a loan of Rs 30,000/- to the

Kolar Municipality with a view to spend Rs 25000 on the water works & Rs 5000 for improving the slaughter houses in the town. Govt observed that the amount required for improving the slaughter houses was comparatively small and that the Municipal Council should carry out the work from their funds without recurring to a loan from Govt for the purpose and called for the Chief Engineer's proposals about the water supply of the town in which the Chief Engineer suggested a scheme involving an initial outlay of Rs 25,000 and an annual recurring charge of about Rs 1000/- for supplying clarified water by gravitation from the Avanashi tank. As the Municipality pleaded inability to finance the scheme they were asked to suggest their finances so as to admit of at least a moiety of the work being met from their funds.

2 — On these foregoing circumstances instructions were solicited as to whether any further action is necessary on the R. A. subject under disposal & if answered, the Govt may be requested to inform the R. A. Member
